

De la Ville fonctionnelle à la Ville relationnelle

Sonia Lavadinho

bfluid

An aerial photograph of a city, likely in Brazil, showing a dense urban landscape with numerous high-rise apartment buildings and a complex highway interchange. In the background, a large stadium with a distinctive red and white roof is visible. Two speech bubbles are overlaid on the image. The first bubble, on the left, contains the text 'Krs vir ka casa?'. The second bubble, on the right, contains the text 'Kool! ...mas a t mãe tem k m vir buskar...'.

Krs vir ka casa?

Kool!
...mas a t mãe tem k m vir buskar...

Regenerative Stadt

Inklusive Gestaltung

A large public fountain in a city square. The fountain's structure is a tall, rectangular wall made of bricks, with a large, stylized face of a woman's face (the 'Water for People' fountain) made of bricks. Water is spraying from the mouth of the face. The fountain is surrounded by a paved plaza where many people, including children and adults, are playing in the water. In the background, there are several tall, multi-story buildings, including a modern one with large windows and a brick facade, and older, more ornate buildings. There are also some trees and a bus in the background.
